ORCHARD CREW

ABOUT

I started my career in a lab, developing and printing. After university, I worked in New York City as a Digital Operator. I relocated to London in 2014, where I'm currently based. With 23 years of on-set experience, I have a broad history to pull from. I have collaborated on productions of all sizes with every available shooting format. For the last four years, I have focused on building my motion skills and split my time between DIT and Digi with my photo clients.

EXPERIENCE

INDUSTRIAL COLOR

2004 - 2006

New York's first major onset capture provider.

- Capture Assist, Data Management, On-set Retouching

Freelance Digital Operator

2006 - 2014
